

International Security Conference

SCADA SECURITY

Organized as a part of **FUTURE FORCES FORUM**

4 – 5 November 2019 • Hotel DAP, Prague, Czech Republic

Call for Papers

The conference focuses mainly on current topics in the security of ICS and the Internet of things and other related topics. The conference follows on from previous events on security organised under the Future Forces Forum (FFF), creates the unique forum for both partners and participants to discuss and share information and experience in the ICT and cyber security areas. It will also look for alternative solutions of the issues on hand, in particular by engaging world-renowned professionals in security of ICS systems.

The organiser of the conference seeks professional papers in the area of cyber security, protection of the critical infrastructure, security of ICS and security of Connected World with a special focus on future threats, challenges and objectives.

The organiser reserves the right to reject any paper, which does not focus on conference topics or expected programme structure or any paper without any explanation on the free decision of the organiser.

Conference topics

- Current and future cyber threats and their solutions
- New technology trends in ICS security
- Connected world, Mobility and the Internet of things
- Human factor and related topics
- Public safety in smart cities
- GDPR in environment of the smart cars

Important Dates

Deadline for submission of paper abstracts including professional CV and photograph:

1 June 2019

Information to authors after paper acceptance and inclusion in the conference programme:

1 July 2019
